

# FALL LEAF FUN

## MUSEUM MASHUP

### MAPLE LEAF PAL

- Put the googly eyes into the position on the leaf where you'd like the face to be. The eyes are like stickers, just peel off the back and place them on your leaf!
- Use a marker to draw a mouth, nose, and eyebrows on your leaf
- Turn the leaf over and glue the craft stick to the back, with enough below the leaf to be a handle.
